In support of these General Education Student Learning Outcomes all San José City College students are expected to demonstrate proficiency in reading, writing, and mathematics. The successful completion of college level reading, writing, and mathematics courses are therefore required of all degree candidates. In direct support of these outcome expectations, special courses and assistance are provided to students through the various learning skills centers at the College. Additionally, faculty and staff are available to provide help, strategic support, encouragement, and direction to students. Each course in the degree programs offered by the College provides students with opportunities to develop critical thinking and the additional skills required by universities and today's competitive global employment marketplaces. By the time students have completed their Associate Degree objectives at San José City College, they will have a firm foundation of knowledge and skills leading to success in future personal and career pursuits directly pursuant to gainful employment.
